Permit No.: 2080 - Revised
Permit Type: Removal
Waterway: Willamette River
County: Multnomah County
Expiration Date: February 4, 2000

PORT OF PORTLAND

IS AUTHORIZED IN ACCORDANCE WITH ORS 196.800 TO 196.990 TO PERFORM THE OPERATIONS DESCRIBED IN THE ATTACHED COPY OF THE APPLICATION, SUBJECT TO THE SPECIAL CONDITIONS LISTED ON ATTACHMENT A AND TO THE FOLLOWING GENERAL CONDITIONS:

1. This permit does not authorize trespass on the lands of others. The permit holder shall obtain all necessary access permits or rights-of-way before entering lands owned by another.
2. This permit does not authorize any work that is not in compliance with local zoning or other local, state, or federal regulation pertaining to the operations authorized by this permit. The permit holder is responsible for obtaining the necessary approvals and permits before proceeding under this permit.
3. All work done under this permit must comply with Oregon Administrative Rules, Chapter 340; Standards of Quality for Public Waters of Oregon. Specific water quality provisions for this project are set forth on Attachment A.

Violations of the terms and conditions of this permit are subject to administrative and/or legal action which may result in revocation of the permit or damages. The permit holder is responsible for the activities of all contractors or other operators involved in work done at the site or under this permit.

- * 5. A copy of the permit shall be available at the work site whenever operations authorized by the permit are being conducted.
6. Employees of the Division of State Lands and all duly authorized representatives of the Director shall be permitted access to the project area at all reasonable times for the purpose of inspecting work performed under this permit.
 7. Any permit holder who objects to the conditions of this permit may request a hearing from the Director, in writing, within 10 days of the date this permit was issued.

NOTICE: If removal is from state-owned submerged and submersible land, the applicant must comply with leasing and royalty provisions of ORS 274.530. If the project involves creation of new lands by filling on state-owned submerged or submersible lands, you must comply with ORS 274.905 - 274.940. This permit does not relieve the permittee of an obligation to secure appropriate leases from the Division of State Lands, to conduct activities on state-owned submerged or submersible lands. Failure to comply with these requirements may result in civil or criminal liability. For more information about these requirements, please contact the Division of State Lands, 378-3805.

ATTACHMENT A

Special Conditions for Material Removal Permit No. 2080

1. This permit authorizes the removal of up to 25,000 cubic yards of sand and silt in the Willamette River, between miles 1.0 and 11.0 (Port Marine Terminals 1, 2, 4, and 5 and the Swan Island Repair Yard) to provide adequate depths for operation of Port's facilities as outlined in the attached permit application, map and drawings.
2. Turbidity shall not exceed 10% above natural stream turbidities as a result of the project. The turbidity standard may be exceeded for a limited duration, (per OAR 340-41) provided all practicable erosion control measures have been implemented as applicable, including, but not limited to:
 - use of filter bags, sediment fences, silt curtains, leave strips or berms, or other measures sufficient to prevent offsite movement of soil;
 - use of an impervious material to cover stockpiles when unattended or during a rain event;
 - graveled construction accesses to prevent movement of material offsite via construction vehicles;
 - sediment traps or catch basins to settle out solids prior to water entering ditches or waterways; and
3. Erosion control measures shall be maintained as necessary to ensure their continued effectiveness, until soils become stabilized.
4. Petroleum products, chemicals, or other deleterious materials shall not be allowed to enter the water.
5. If the material is federally approved for in-water disposal it may be disposed of at Morgan Bar or at Ross Island Lagoon, otherwise an approved upland disposal site shall be used.
6. Removal in the permit area shall be conducted between July 1 through October 31 and December 1 to January 31.
7. Material shall not be removed to a depth greater than -41 feet MSL.
8. The Division of State Lands retains the authority to temporarily halt or modify the project in case of excessive turbidity or damage to natural resources.

COMMENT:

1. Outfalls are located adjacent to most of the dredging areas. The applicant is responsible for preventing damage to the facilities or obstruction of flow out of the structures.

U.S. ARMY CORPS OF ENGINEERS
STATE OF OREGON, DIVISION OF STATE LANDS

WHEREAS Department of the Army permits for proposed work in or affecting navigable waters of the United States, the
 () large of dredged or fill material into those waters, and the transport of dredged material for the purpose of
 ing it into ocean waters are authorized by Section 10 of the River and Harbor Act of 1899, Section 404 of the
 Clean Water Act of 1977, and Section 103 of the Marine Protection Research and Sanctuaries Act of 1972, respectively,
 ---AND---permits for that part of those project activities which includes the removal or fill in the waterways of
 Oregon of rock, gravel, silt, and clay are authorized by the State of Oregon under O.R.S. 541.603 to 541.693---THIS
 APPLICATION WILL MEET THE REQUIREMENTS OF BOTH AGENCIES.

In order to expedite the processing of this application, the following city and/or county department, which has local jurisdiction over the proposed project, has been contacted:

Name of Department: _____
 Address: _____
 Phone Number: _____

APPROVALS OR CERTIFICATIONS applied for or already obtained from other agencies (Federal, Interstate, state, county, city, area) for any of the proposed projects described in this application:

Issuing Agency	Type of Approval	Identification #	Date of Application	Date of Approval
----------------	------------------	------------------	---------------------	------------------

Is any agency denied approval for the activity described herein or for any other activity directly related to it?

Yes ☒ No ☐ If yes, please explain in Remarks.

IS PROPERTY ON THE WATERWAY: Give names, addresses, and phone numbers of owners and/or occupants.

Various

EASE EXPLAIN IN DETAIL your plans to restore the area to its natural condition.

The area will restore itself to its natural condition over a short period of time.

FORMATION FOR FILL OR REMOVAL:

LL WILL INVOLVE _____ cubic yards annually, and _____ cubic yards for the total project.

☐ Riprap ☐ Rock ☐ Gravel ☐ Sand ☐ Silc ☐ Clay ☐ Organic

OVIAL WILL INVOLVE 20,000 cubic yards annually, and 80,000 cubic yards for the total project.

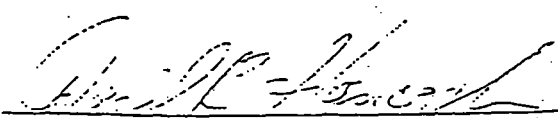

☐ Rock ☐ Gravel ☒ Sand ☒ Silc ☒ Clay

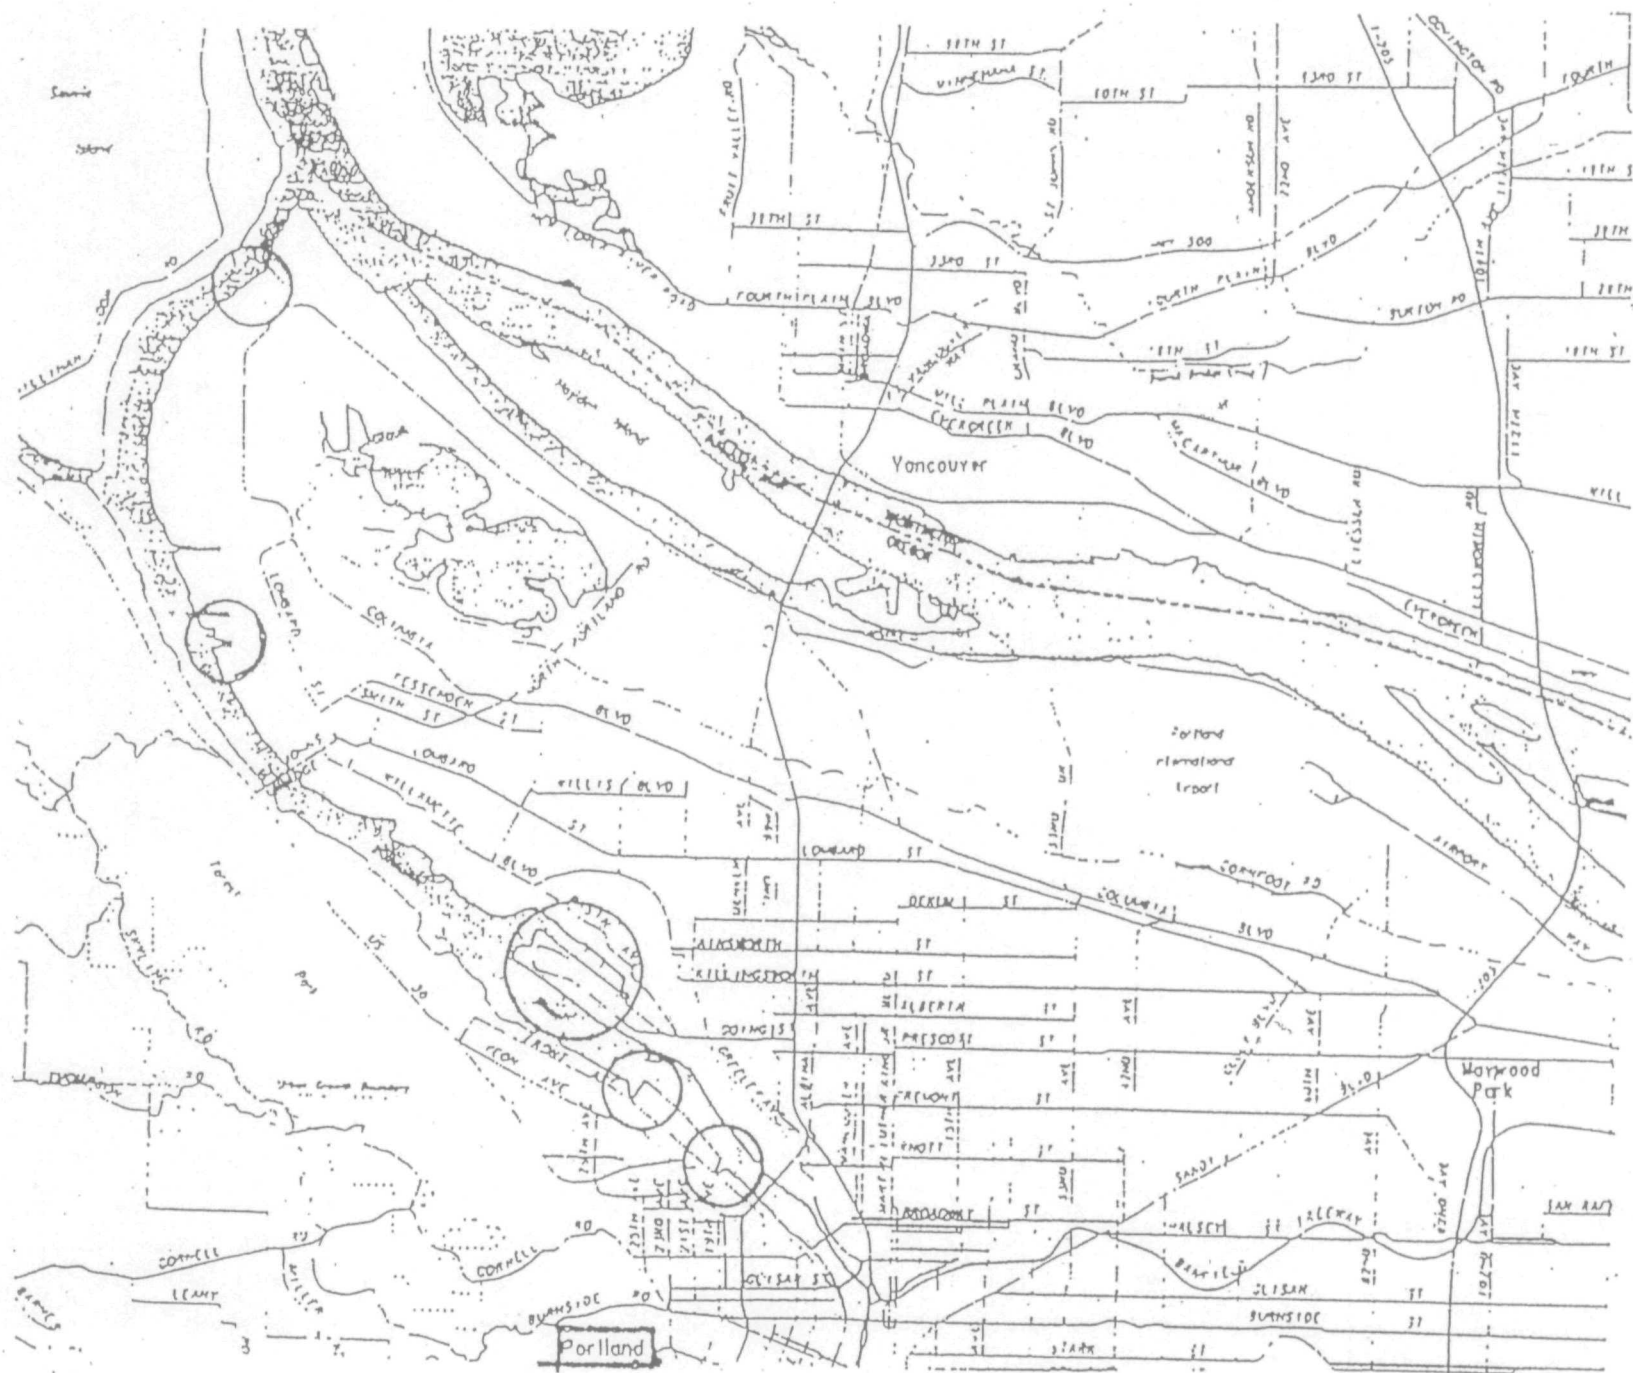

SCRIBE IN DETAIL THE PROPOSED ACTIVITY---its primary purpose and secondary purpose, if any,---intended use (private, public, commercial)---type of structures and use---type of vessels using facility---facilities for handling wastes---mode of conveyance and manner of extraction of any fill or removal---the quantity and composition of, and the source of disposal sites for any fill or removal. (If additional space is needed, use plain sheet of paper.)

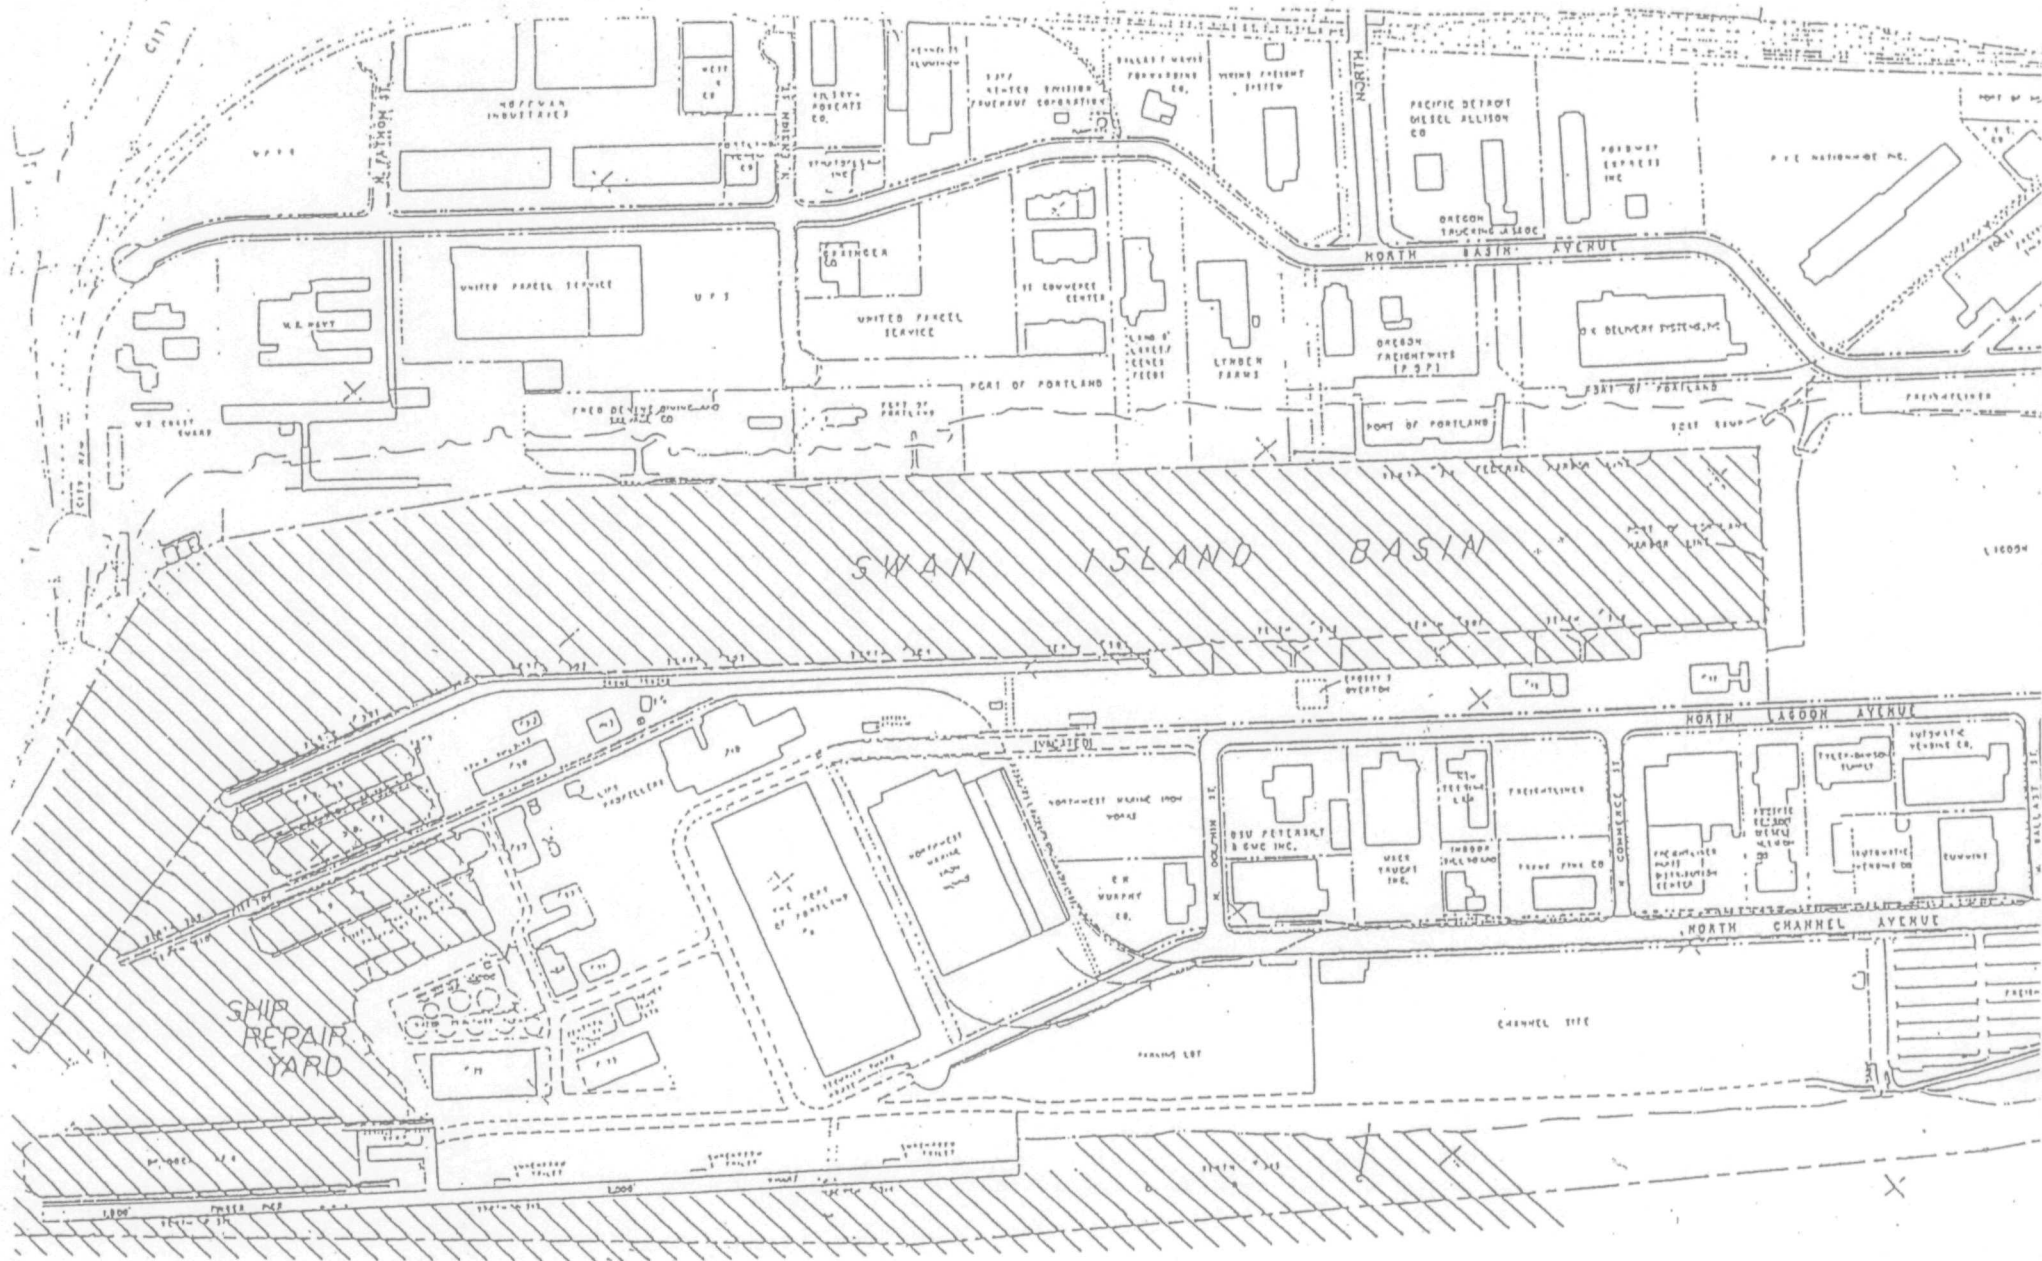

Annual maintenance dredging of the Ports marine berthing facilities including Port Marine Terminals 1, 2, 4, 5 and the Swan Island Repair Yard to provide adequate depths for navigation. Because river shoaling is unpredictable and produces great yearly variability in the need for maintenance dredging the particular facilities and the exact volumes required in any given year is unknown.

Generally shoals are removed with a barge mounted clamshell bucket and barged to either the in-water disposal site at Morgan Bar or transported to an approved upland site. The choice of disposal site depends on the suitability of the material. Since the sediment quality is expected to be variable between locations, sediments will be evaluated prior to dredging as to their suitability for inwater disposal. The interim DEQ sediment quality guidelines will be used as criteria for suitability for inwater disposal. The use of the Morgan Bar disposal site will be coordinated with the resource agencies.

Declaration is hereby made for a permit or permits to authorize the activities described herein. I certify that I am familiar with the information contained in this application, and that, to the best of my knowledge and belief, such information is true, complete, and accurate. I further certify that I possess the authority to undertake the proposed activities.
